Imola®

Imola® is a drivers style glove made with a full micro-foam nitrile coating and a soft fleece lining. Imola® is unique in that it has the look and style of a conventional leather drivers glove but is considerably lighter in weight, more flexible and more competitively priced. It is made with 360° micro-foam coating that is lined with a soft fleece which keeps the hands warm and comfortable. The Micro-foam shell is consistently thinner and more flexible than traditional foam nitrile yet offers improved mechanical properties, delivering excellent abrasion resistance, for optimum durability and longevity. It also provides a superb grip, in particular, it excels in wet conditions as it channels liquids away from the glove surface. The adjustable VELCRO® wrist strap provides a secure fit and helps to keep the hands free from dust and debris.

Typically used for:

- Agricultural Work
- Bricklaying
- Component Handling
- Emergency Services Work
- General Assembly
- Haulage
- Offshore Maintenance
- Timber & Wood Handling

Case Quantity:

10 pairs per polybag
50 pairs per case

CE EN388 4131 EN511 010 EN407 X2XXXX

Size	Code
8	DR300/08
9	DR300/09
10	DR300/10
