Dual-Monitor Desktop Stand

Product ID: ARMBARDUO

This dual-monitor stand lets you mount two individual displays, each up to 24" in size, to a single base that you can place in virtually any workspace.

Free up desk space

With its dual-crossbar design, this monitor stand lets you mount two monitors in the same physical space as one, so you have more surface area on your desk available for additional hardware or completing physical tasks such as drafting or reading paper documents. The monitor stand features a low-profile flat back that enables you can snugly position your displays against a wall or cubicle, unlike other dual-monitor mounting options.

If you're outfitting an entire office, you can give employees more work space at each desk and use smaller cubicles to maximize your available office real estate.

Boost your productivity, with multi-monitor efficiency

Adding two monitors to a single computer gives you the additional screen space you need to simplify multitasking and maximize your productivity. Using two displays makes it easier to reference material on one display while working on another, saving you the time and hassle of having to flip back and forth between documents.

Work more comfortably

The dual-monitor mount features easy-to-adjust height and tilt mechanisms, so you can customize the positioning of your displays to the most comfortable positions without disrupting your work. Plus, the desktop stand enables a hassle-free setup that ensures even installation is comfortable.

The ARMBARDUO is backed by a 5-year StarTech.com warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Add two monitors to your work station. You can complete your tasks quicker, without the disruption of having to flip between windows.
- Make better use of your desk space by mounting both of your monitors to a single base.
- Reduce the space requirements of individual desks, so that you can fit more desks in your office.

Features

- Optimize your desk space by mounting two monitors on a single base
- Boost your productivity by multitasking on two displays
- Work more comfortably, with hassle-free display adjustments
- Supports monitors, up to 24" in size and up to 18 lb. (8 Kg) in weight
