NX520

HAIKA®

Nitrile Examination Gloves

Latex free, powder free, non-sterile

HAIKA® NX520 are lightweight, ambidextrous, single-use medical nitrile examination gloves.

They offer healthcare professionals high performance barrier protection as well as supreme comfort and touch sensitivity.

Key Features

Secure Control
A textured surface enhances slip resistance and allows for a secure grip.

Supreme Comfort and Sensitivity
The lightweight and elastic nature of the nitrile delivers an excellent sense of touch and a comfortable wearing experience even when worn for long periods.

Effective Barrier Protection
Helps to protect users and patients from the transmission of infections.

Beaded Cuff
Durable beaded cuff design enables the glove to be donned and removed efficiently and securely.

Powder-free and Latex-free
Eliminates powder-induced irritation and makes it ideal for people with a Type I latex sensitivity.

Minimises the Risk of Allergic Contact Dermatitis
Free of Thiurams, Mercaptobenzotiazoles, Thiazoles and Thioureas.

Chemical Resistant
Tested in accordance with EN374-1:2016 for resistance to chemical substances.
Tested against chemotherapy drugs according to ASTM D6978-05.
