

PRIMEX
ABRASIVES' SIGNATURE

FR628 **CARBOFIBRE**

For building materials

APPLICATIONS

Suitable for dry sanding of buildings materials and especially marble and stones.

AVAILABLE SHAPES

Disc
Must be used with backing pads.

TECHNICAL DATA

- Backing: **reinforced fiber backing**
- Bonding: **resin**
- Grain: **silicon carbide**
- Grit: **P36 to P80**

FIBER DISCS have a backing which is composed of several impregnated papers, which makes it very tear resistant. **They are used with grinders for deburring, polishing or finishing any metal or other material.** Fibre discs are neither flexible or water resistant.
