ASCO™ Spool Valves

single/dual solenoid (mono/bistable function) - pilot operated or air operated aluminium body - 1/4" and 1/2" tapped

3/2 NC SERIES 551 - 553

Features

- *The monostable spool valves in conformity with IEC 61508 Standard (2010 route 2_H version) have TÜV (551 series) and EXIDA (551-553 series) certified with integrity levels: SIL 2 for HFT = 0 / SIL 3 for HFT = 1*
- *The spool valves 3/2 NC have threaded port connections*
- *All the exhaust ports of the spool valve are connectable, providing better environmental protection. Particularly recommended for sensitive areas, such as clean rooms, and applications in the pharmaceutical and food processing sectors*
- *The valve offers environmental protection against the ingress of liquids, dusts or any other foreign matter (environmentally-protected construction)*
- *Epoxy moulded coil for general service applications*
- *The solenoid valves satisfy all relevant EU Directives*

General

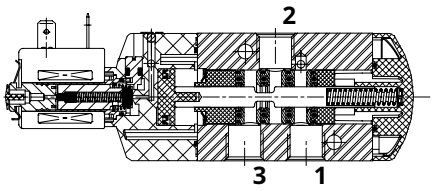

Differential pressure 2 - 10.4 bar [1 bar =100 kPa]
Flow (Qv at 6 bar) 1/4" = 860 l/min (ANR)
1/2" = 3800 l/min

Fluids (✶)	Temperature range (TS)	Seal materials (✶)
air, inert gas, filtered	-25°C to +60°C	NBR (nitrile) + PUR (polyurethane)

Materials in contact with fluid

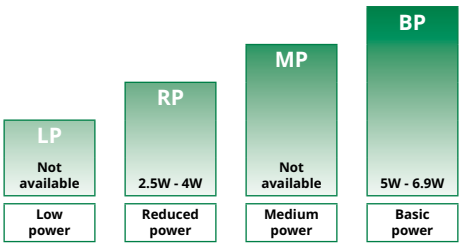

(✶) Ensure that compatibility of materials in contact with fluids is verified.

Body	Aluminium, black anodised
End cover (spring return)	Glass-filled PA
Spool valve internal parts	Zamak, stainless steel, POM, aluminium
Seals	NBR + PUR
Core tube	Brass
Core and plugnut	Stainless steel
Shading coil	Copper

(1) For prefix PV, standard cable length is 2m.
For other lengths, please use below prefix and suffix in the PV code table.

PV codes table

Cable Length	Prefix	Suffix	Example
3m	L	J	PVL G551A005MS. 24/DC. J
4m		K	PVL G551A006MS. 24/DC. K
5m		L	PVL G551A005MS. 24/DC. L
6m		M	PVL G551A006MS. 24/DC. M
10m		R	PVL G551A005MS. 24/DC. R

Suffix table

Suffix							Description	Power level			
1	2	3	4	5				LP	RP	MP	BP
	G	D					Non-electrical, 2 GD, construction safety, gas/dust (EN ISO 80079-36/37)	-	-	-	-
			M	S			Screw type manual operator	-	●	-	●
	S	L					Certified IEC 61508 Functional Safety data (1)	-	●	-	●

Product selection guide

STEP 1
Select basic catalogue number, including pipe thread indentification letter. Refer to the specifications table on page: 1
Example: G551A005

STEP 2
Select prefix (combination). Refer to the specifications table and the prefix table, respect the indicated power level.
Air operated version, does not use prefix.
Example: SC

STEP 3
Select suffix (combination) if required. Refer to the suffix table, respect the indicated power level.
GD suffix available for air operated version only (do not use manual operator suffix).
Example: MS

STEP 4
Select voltage. Refer to standard voltages on page: 3
Example: 230V / 50Hz

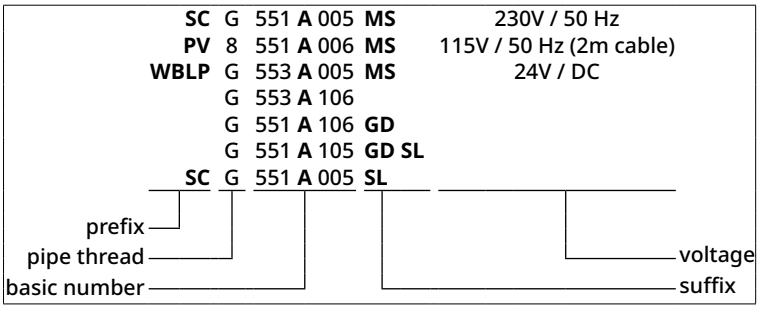

STEP 5
Final catalogue / ordering number
Example:
SCG551A005MS 230 V / 50 Hz

Options and Accessories

553	1/2"	**34600479** (2)	**34600481** (2)	-
551/553	M5	-	-	**34600484** (2)

● Available feature
- Not available
* ATEX/IECEx valves using these solenoids are approved according to EN ISO 80079-36 (2016) and EN ISO 80079-37 (2016) [non electrical]
(1) Not to use with MS suffix
(2) Provided with "SL" suffix

Ordering examples valves:

80049GB-2024/R01

Explanation of temperature ranges of solenoid valves

Valve temperature range	The valve temperature range (TS) is determined by the selected seal material, the temperature range for proper operation of the valve and sometimes by the fluid (e.g. steam)
Operator ambient temperature range	The operator ambient temperature range is determined by the selected power level and the safety code
Total temperature range	The temperature range of the complete solenoid valve is determined by the limitations of both temperature ranges above

Electrical characteristics

Coil insulation class F
Electrical safety IEC 335
Standard voltages DC (=) 24V - 48V
AC (~) 24V - 48V - 115V - 230V/50Hz; other voltages and 60Hz are available on request

(1) Refer to the dimensional drawings on pages: 4 to 5 (Air operated versions: Refer to the dimensional drawings on pages: 7).
(2) Multiple coil kits are available under ATEX/IECEx, contact us

Electrical connections

Prefix	Connection
SC	Type 01: Spade plug connector with cable gland DIN 43650, 11 mm, industry standard B, for cables with an outer diameter from 6 to 8 mm Type 02: Spade plug connector with cable gland EN175301-803A (ISO 4400) for cables with an outer diameter from 6 to 10 mm
PV	Moulded-in cable, standard length 2 m
WBLP	M20 cable gland for cables with an outer diameter from 7 to 8,5 mm
EF	1/2" NPT conduits
JBEF	EF + Junction box

Additional options

- Other pipe threads are available on request
- Ex mb (prefix "PV") solenoid can be supplied with various cable lengths

Installation

- Multi language installation/maintenance instructions are included with each valve
- The valves can be mounted in any position without affecting operation
- Do not connect the pressure supply to the exhaust port 3. The “environmentally-protected” construction is not adapted for a “distributing” function or use in NO function. Contact us for functions available in specific versions
- IEC 61508 Functional Safety (suffix SL). Check temperature range of valve body and solenoid for suitability. For probability of failure, contact us
- It is necessary to connect pipes or fittings to the exhaust ports to protect the internal parts of the spool valve and its pneumatic operator if used outside or in harsh environments (dusts, liquids etc.)
- Threaded pipe connection identifier is 8 = NPT (ANSI 1.20.3); G = G (ISO 228/1)
