506A Joint-slip long nose Lock-Grip plier

This product innovates mainly by the release trigger situated on the lower grip of the pliers, simplifying and securing its use.

FORGED AND REINFORCED JAWS Powerful grip. Long lifetime. Machined groove on upper jaw to hold and tighten small diameter parts.

PARALLEL JAWS - TOOTHING OVER ENTIRE DEPTH The part does not slip. No movement regardless of the type of part, very powerful tightening.

INNOVATING PATENTED SLOTTED OPENING SYSTEM Instant pliers opening by pressing the grips. Very prompt adjustment on any type of part.

5-POSITION SLOT High capacity and easy adjustment.

PATENTED RELEASE TRIGGER Instant pliers opening by pressing the grips. Very prompt adjustment on any type of part.

ERGONOMIC GRIPS Easy and comfortable grip, with or without gloves.

"SAFETY LOCK SYSTEM" FASTENER Secures work in high locations. FME compatible (Nuclear).
