

PRIMEX
ABRASIVES' SIGNATURE

# FR748 **OXAFIBRE**

## High cutting power

### APPLICATIONS

**The performing solution for snagging operations on hard steels, stainless steel, etc.**

### ADVANTAGES

- **High cutting power.**
- **High productivity.**
- **Long-life.**

### AVAILABLE SHAPES

Disc
*Must be used with backing pads.*

### TECHNICAL DATA

| | |
|---|---|
| • Backing: | **reinforced fiber backing** |
| • Bonding: | **resin** |
| • Grain: | **aluminium oxide** |
| • Grit: | **P36 to P120** |

**FIBER DISCS** have a backing which is composed of several impregnated papers, which makes it very tear resistant. **They are used with grinders for deburring, polishing or finishing any metal or other material.** Fibre discs are neither flexible or water resistant.
