

Skipper dummy unit

Product code: Dummy01

Overview

If you want a Skipper unit without any tape, then you need a dummy unit. Dummy units allow you to attach an end clip as with a normal skipper unit, but come without any tape. You can use a dummy as an 'end unit', where the line of tape doesn't need to go any further.

Product Specifications

Width: 145mm **Height: 145mm**

Depth: 240mm **Weight: 400g**

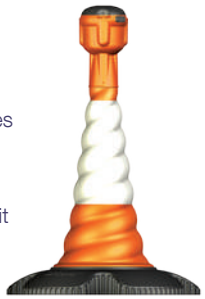

Key selling points

- Built for purpose
