Premium Tig Welding Glove

Innovative TIG welding glove, crafted with premium goat grain leather for exceptional dexterity and reinforced cow split leather cuffs for heat resistance. Designed for precision welding, it combines superior comfort, safety, and performance, with a signature red cuff reflecting our Cut 1 colour scheme.

Key Features:

- Premium quality goat grain leather palm provides superior dexterity, softness, and tactile sensitivity ideal for precision TIG welding
- Cow split leather cuff enhances durability and offers excellent protection against sparks, abrasion, and welding spatter
- Extended cuff length ensures extended coverage, safeguarding the wrist and lower forearm during welding operations
- Sewn with high-strength aramid thread for enhanced seam durability and resistance to heat and mechanical stress
- Naturally flame-retardant leather materials offer reliable protection against moderate heat and direct welding contact
- Ergonomic glove design supports flexibility and a natural range of motion, minimizing hand fatigue during extended use
- Reinforced wear areas for improved longevity and performance in heavy-duty industrial environments
- Certified under Category II PPE with CE and UKCA markings, compliant with EN 12477 Type B for TIG welding
- A vibrant red colour represents Traffi's Cut 1 colour scheme, ensuring quick identification of glove performance level
- Leather is sourced from LWG Gold Rated tanneries, ensuring the highest standards of sustainable and responsible leather production
- Certified by OEKO-TEX®, gloves are tested to be free from harmful substances, ensuring safety for users and compliance with global chemical safety standards.

Ideal for:

- Precision TIG welding
- Light fabrication work
- Manufacturing and Assembly
- Maintenance
