10UWall Mount Network Rack- 14" (35.5cm) Deep(Low Profile), 19" Patch Panel Bracket for Shallow Server, ITEquipment, Network Switches- 77lbs/35kg WeightCap., Black

Product ID: RACK-10U-14-BRACKET

The 10U 14in deep wall mounting bracket for patch panels delivers a sturdy and dependable equipment storage option, allowing you to wall mount data/IT equipment for a more efficient and accessible operating environment. It's the perfect solution for areas where space is at a premium like SoHo (small office, home office) environment, or space limited server room because it doesn't take any floor space.

The mounting bracket features an all-steel design and is suitable for mounting patch panels, or other slim 19in equipment to a wall, and to organize cabling or equipment in your network closet, wiring closet, back office, or IDF. The sturdy steel construction is especially helpful for durability and stability. Also, because The open frame wall rack's mounting holes are positioned 16in. apart, allowing you a simple and secure wall-stud anchoring to your existing construction framework.

M6 square cage nuts and M6 screws are included with the wall-mount bracket, additionally, M5x25 mounting screws are included to save you the hassle of sourcing separate mounting hardware.
