FS 110

Strip, made of felt or aluminium borosilicate

Felt strips, and their high-temperature variants made of aluminium borosilicate, provide a simple and effective sealing solution. They accommodate relatively high shaft speeds, because a small gap forms between the felt strip and the shaft, transforming the seal into a non-contact, gap-type seal. Felt strips should be cut to the correct length and soaked in hot oil prior to being installed.

- Cost-effective
- Suitable for relatively high shaft speeds

Overview

Dimensions

Width	4 mm

Properties

Accessory type	Housing seal
Sealing type	Felt
Material	Felt

Logistics

Product net weight	0.0007 kg
eClass code	23-05-17-90
UNSPSC code	31171519
