TRICOTRIL® WINTER 738

ATTRIBUTE	DESCRIPTION / VALUES
Article No. Name	• 738 • Tricotril® Winter 738
Material	• Nitrile • Wool
Description	• Heavy seamless wool liner, • Cuff, fully coated, • Palm profile
Length (mm)	• 290 -310
Total thickness (mm)	• 2,0 ± 0,2
Coating thickness (mm)	• 0,4
Colour	• Green
Size	• 8, 9, 10, 11
Classification	• Category III EN 388:2016 3121X; EN 374-1/Type A AJKLOPT; EN 374 Virus; EN 407 X1XXXX; EN 511 X11

APPLICATION:

- Working in cold areas
- Working in areas with momentary steam hazard
- Handling of contaminated heavy parts
- Cleaning and maintenance in chemical plants
- Galvanising works
- Chemical industry

QUALITIES AND ADVANTAGES:

- Insulating effect at high or low temperatures
- Short-term cold protection down to -20 °C
- Broad chemical resistance
- High mechanical resistance
- Good grip when handling greasy and oily parts
- High user comfort for long working periods without operator fatigue

FEATURES:

- AQL < 0,65
- Free from natural latex
- Warming seamless wool liner
- Skin friendly by solvent-free adhesive on the wool liner
- Wool liner is fixed later to the finished glove to ensure maximum protection
- Food safety according to EU 1935/2004
