Quality Tools for Smart Cleaning™

Unger tools and accessories are exactly what your custodians need to keep facilities litter free. Purpose-built grabbers, picker pins and the collapsible NiftyNabber® Bagger allow workers to collect refuse without needing to bend over, relieving physical strain while cleaning.

NiftyNabber® Trigger Grip Advantages

- Access hard-to-reach areas or items with 360° rotating head
- Ergonomically designed grip with smooth trigger-pull action for increased comfort and efficiency
- Magnetic tip allows the grabber to pick up small metal objects - up to .25 lbs.
- The rubber claws allow users to pick up and hold small objects

NiftyNabber® Pro Advantages

- Strong enough for heavy-duty work, this reacher is light enough to protect from back and arm strain
- Shaft made from durable steel for long-lasting, dependable use
- Extra-long lengths available (51" / 96") for high-access cleaning eliminating the need for ladders

NiftyNabber® Bagger Advantages

Rugged plastic bottom and built-in side handles allows the bagger to be dragged over rough surfaces (concrete/asphalt/dirt).

Built-in bottom drainage holes makes rinsing the bagger clean easy for workers.

The bagger collapses and locks for easy storage and shipping, saving on transport costs.
