930 BLACK/GRAY

Luna was built for use on dynamic work sites where you need lightweight protection that delivers on all day comfort. Built on a women's specific last, this concept has been updated with a high rebound EVA midsole and Ortholite® X25 Hybrid footbed for improved comfort. We've also updated our breathable and moisture wicking lining materials to include at least 50% recycled content. The new streamlined design also includes reflective details for increased visibility on and off the worksite.
