KIT-..

Intervention kit for transformer stations

Application :

- Allows to meet the standards in effect

1. **NF C13-100**: Delivery stations supplied by a public HV distribution network (up to 33 kV).
2. **NF C13-200**: High voltage electrical installations for power generation, industrial, tertiary and agricultural sites.

Features :

- **KIT-01** : For 20 kV stations with insulating stool. To be completed with a CL-465 series detector.
- **KIT-10** : For 20 kV stations with insulating mat. To be completed with a CL-465 series detector.
- **KIT-02** : For 36 kV stations with insulating stool. To be completed with a CL-465 series detector.

Composition :

- Insulating gloves **CG-3-10-NR**.
- Wall box for insulating gloves **CG-35/2**.
- Fuse holder **CI-23**.
- 45 kV Rescue pole CS-45 supplied with wall brackets **CI-06-D**.
- Insulating stool **CT-7-*/1** or insulating mat class 3 **MP-42/16** with storage tube **MP-20** according to the selected kit.
