

Ergonomic Concept workbench

The ergonomic Concept workbench can be flexibly adapted to meet the needs of industrial working environments. Multiple sizes and combinations are available in this product family. The height can be adjusted electrically (electric motor height adjustment) or manually (with a hand crank or an Allen key). The Concept workbench model has the widest range of accessories on the market. Suitable virtually to any environment, application and industry, from electronics and luxury item manufacturing to medical equipment suppliers (cleanroom suitability ISO class 7). Can be accessorized for use in packing, fulfillment, assembly, testing or quality assurance functions.

- An ergonomic, modular, and adaptable industrial workbench
- Various sizes and combinations
- Height adjustment electrically (electric motor height adjustment), or with a hand crank or an Allen key
- A wide range of accessories and add-ons – easy to customise
- Very stable, with a steel frame, maximum load capacity 500 kg
- The frame, table top, and accessories available with ESD protection.
