W 14

Lock washer for inch lock nuts

W lock washers are locking devices, used to secure AN and N lock nuts onto a shaft or adapter sleeve and prevent unintentional loosening. The lock washers engage a keyway in the shaft or adapter sleeve thread. They lock the nut in position when one of the washer tabs is bent into one of the slots in the outside diameter of the lock nut. A new lock washer should be used each time the corresponding lock nut is installed.

- Simple, stable and reliable fastening element
- Easy to install and remove
- Used for normal series AN and N lock nuts

Overview

Dimensions

Bore diameter	70.891 mm

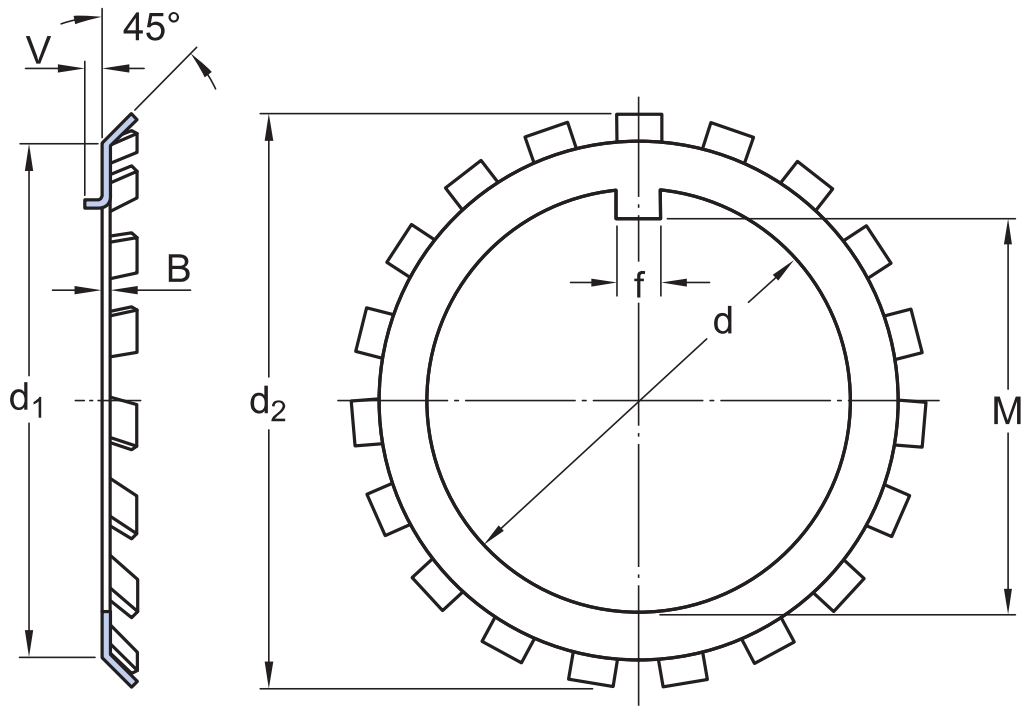

Properties

Locking device	Lock washer

Logistics

Product net weight	0.03 kg
eClass code	23-11-07-05
UNSPSC code	31163218
