12V BRAKE BLEEDER

DF.71

1. **PRESSURE RELEASE VALVE**
   Prevents over-pressurization while adding safety, convenience, and reliability to the brake bleeding process

2. **INCLUDES A USED DOT BOTTLE**
   Offers a safe collection of old brake fluid while keeping the workspace clean and providing easy disposal.

3. **12 VOLTS POWER CABLE WITH BATTERY CLAMPS**
   Offers quick and easy setup, portable reliable power as well as reliable operation and versatile due to universal compatibility

4. **EASY HANDLE**
   Highly portable, user-friendly, and practical for both stationary and mobile use, making brake maintenance more efficient and convenient.

5. **ADJUSTABLE PRESSURE UP TO 3.4 BAR**

6. **STAINLESS STEEL BODY .4 LITRES TANK CAPACITY**

7. **EUROPEAN CAR CAPS**
   Ensures a safe and leak-free fit for European vehicles, as the use of the correct cap minimises the risk of damaging the threads of the tank or cap
