# TRICOTRIL® WINTER 739

| ATTRIBUTE | DESCRIPTION / VALUES |
|---|---|
| Article No.<br>Name | • 739<br>• Tricotril® Winter 739 |
| Material | • Nitrile<br>• Wool |
| Description | • Heavy seamless wool liner,<br>• Cuff, fully coated,<br>• Palm profile |
| Length (mm) | • 390 - 410 |
| Total thickness (mm) | • 2,0 ± 0,2 |
| Coating thickness (mm) | • 0,4 |
| Colour | • Green |
| Size | • 8, 9, 10, 11 |
| Classification | • Category III<br>EN 388:2016 3121X; EN 374-1/Type A AJKLOPT; EN 374 Virus; EN 407 X1XXXX; EN 511 X11 |

## APPLICATION:

- Working in cold areas
- Working in areas with momentary steam hazard
- Handling of contaminated heavy parts
- Cleaning and maintenance in chemical plants
- Galvanising works
- Chemical industry

## QUALITIES AND ADVANTAGES:

- Insulating effect at high or low temperatures
- Short-term cold protection down to -20 °C
- Broad chemical resistance
- High mechanical resistance
- Good grip when handling greasy and oily parts
- High user comfort for long working periods without operator fatigue

## FEATURES:

- AQL < 0,65
- Free from natural latex
- Warming seamless wool liner
- Skin friendly by solvent-free adhesive on the wool liner
- Wool liner is fixed later to the finished glove to ensure maximum protection
- Food safety according to EU 1935/2004
