SIO-SAFE™
EXTRA ECO

ECO Jacket with ARC protection

The Sartis jacket is a soft and comfortable jacket that offers protection against many industrial hazards such as protection against the thermal hazards of an electric ARC. The jacket has a stand up collar so your neck is protected. The elongated back tail ensures that there is sufficient overlap between jacket and trousers so your body is fully covered and protected. Flame retardant reflective stripes were added for some extra visibility. The jacket has also good moisture regulating properties thanks to a special blend of fibres that was used. In short, the Sartis gives you a comfortable and protective feeling.
