CE UKCA

CHARACTERISTICS	
Type	CE
Length	800
Pack quantity.	1

Item no.: ELD0801E
EAN no.: 8713574231733

Technical data

Description: This door switch is used with LED enclosure lights that don't have a motion detector. Delivered with a 800mm TPS cable.

Dimensions: 31 × 31 × 63 × 800

Pack quantity: 1 piece including cable and door switch.

Features

Feature: Door switch controlling the LED enclosure light. The door switch is mounted directly to the enclosure frame.

Advantage: The door switch can be easily installed in the enclosure and is operated by either opening or closing the enclosure door to swich the LED enclosure light on of off.

Benefit: The door switch does not consume additional energy as it breaks the electrical contact with the connected decive when operated. With the pre-fitted TPS cable the installation is plug and play, which reduces the assembly time.
