DISPLAYPORT

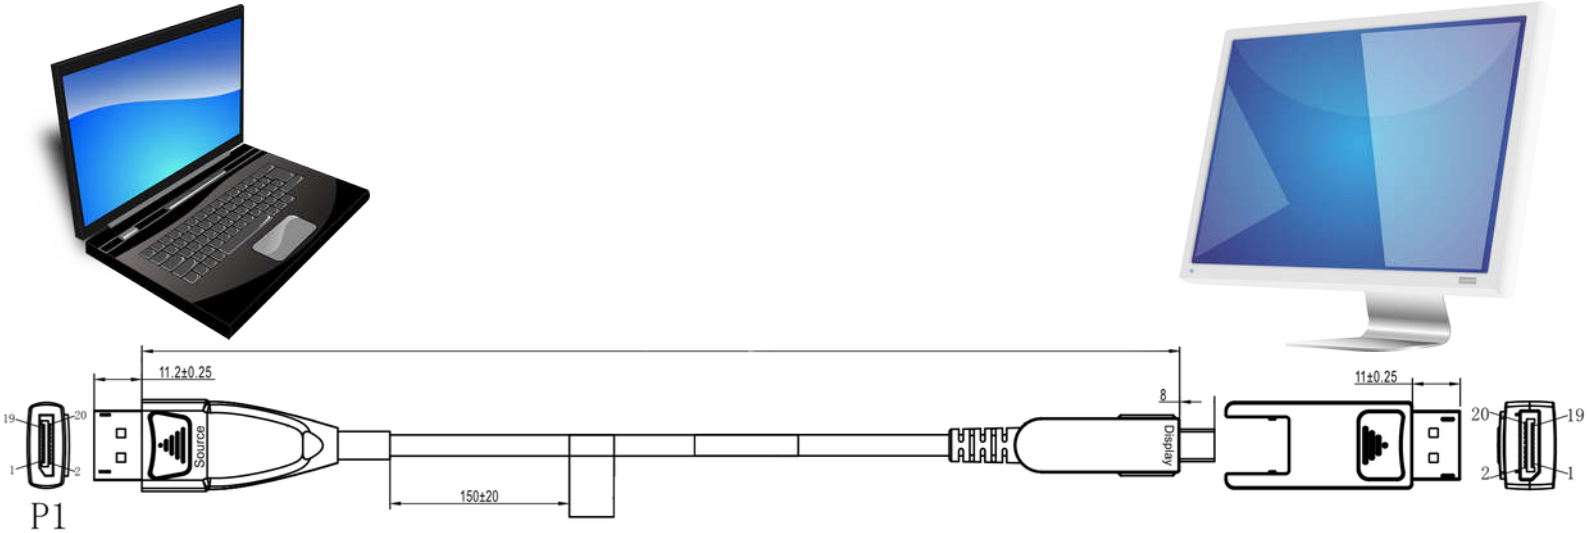

AOC 32Gbps DisplayPort Cable

The AOCDET-DP range of Active Optical DisplayPort 1.4 cables transmit uncompressed audio and video signals. They can support up to 32Gbps bandwidth while providing simple plug and play usability. The cables contain both fibre optic and coppers cores, are lightweight, flexible and have an ultra-small bend radius.

Specification

- Transmission modes: Digital audio and video signals
- Standard: DisplayPort 1.4
- Bandwidth: 32Gbps
- Resolution: Up to 8K @ 60Hz
- Metal connectors
