RS Blue Soft Nitrile Chemical Glove

ENGLISH

A re-usable nitrile glove that performs well against a wide range of chemicals including strong detergents, oils and certain solvents. Anatomically shaped for comfort, the glove is made from synthetic rubber free of latex protein, eliminating protein sensitisation for sensitive skin. Offering good abrasion resistance, it also has a slip resistant pattern on the palm ensuring a good grip in wet and dry conditions. It is also sanitised containing a fungicidal and bacteriostatic agent, and has antistatic properties meeting the EN1149 part1: 1995 surface resistivity requirements.

Styles: Blue Flock Lined

Typically used for:

- Printing • Agricultural Work
- Manufacturing & Assembly
- Cleaning & Janitorial • Local Authority Work
- Food Processing & Packing
- Automotive Maintenance & Repair

Case Quantity:

12 pair per polybag

48 pairs per case
