made in Germany

Universal Control Cabinet Key Electro

- Key profile for these applications:
  electrical engineering, heating and sanitary installations, air-conditioning and ventilation, industry, building technology, e.g. switch cabinets, mains switchboards, locking systems, technical installations, for venting heating systems and many more
- Universal key for almost all common switch cabinets & closures
- Plastic adapter with 1/4" bit-holder and retaining chain, approx. 20 cm
- Bit (1/4") made from high-quality tool steel and specially hardened
- Drive identification marked on each bit
- Inserts equipped with double functions
- Made of zinc casting (GD-Zn)

SKU: 2005-1-SB

General Information

Better safe than sorry.
Electricians put their faith in their tools daily. Electricity is always a potential hazard. Whether they are cutting cables to size, fitting socket outlets or configuring switch cabinets, they need tools they can rely on without fail. When an electrician picks up a set of VDE tools made by NWS, he or she is handling quality tools subjected to stringent testing for practical, hands-on applications in electrical jobs. This is, after all, what professional working, health & safety are all about.

Technical Data

2005-1-SB		
	Length - mm	72
	Square socket - mm	5, 6, 7, 8
	Outside triangular - mm	7, 9
	Double bit - mm	3-5
	Blade width - mm	7
	Blade thickness - mm	1
	Cross slotted (Phillips) - PH	2
	Hexagon socket - in	1/4
	Tool material	GD-Zn
	Weight - g	95
	Length including self-service packaging - mm	165
	Width including self-service packaging - mm	85
