K 470 – battery safe

For the safe storage and transport of defective or damaged lithium batteries in accordance with ADR P908 and SV 376.

Product description

- High-quality special container made of aluminium.
- Suitable for holding up to 3 lithium batteries (UN 3480) of up to 814 Wh each.
- Equipped with fireproof padding and absorbent material made of textured glass fibres.
- Dust-free interior fittings.
- Tested and approved as hazardous goods packaging in accordance with UN requirements, i.e. can be transported on public roads.
- New: Meets the specifications laid out by BAM in Special Provision SV 376 for the transport of critically defective lithium batteries.
- Successfully fire-tested: flame does not spread to adjacent batteries, temperature on the container surface remains below 100°C.
- High stability thanks to 3 fully welded aluminium profile frames.
- Easy to load and unload.

Product features
