

Kensington

Kensington EQ Privacy Screen Filter for 14'' Laptops 16:9

Made with up to 54% post-consumer recycled (PCR) content, the Kensington EQ Privacy Screen Filter is an ideal choice for organisations seeking a privacy solution that offers sustainability attributes, versatility and advanced protection. With a limited viewing angle of ±30°, the privacy filter effectively minimises the risk of visual data breaches in busy offices and public spaces. It reduces blue light exposure to ease eye strain and potentially minimise disruptions to natural sleep patterns. Anti-reflective coating reduces glare. A reversible matte/glossy design adds versatility with a scratch-resistant surface offering enhanced durability. Installation options include frameless tab holders or double-sided tape for a cleaner look. Touchscreen compatible, EQ Privacy Screen Filters accommodate a wide range of laptops and monitors. Meets military-grade wipe down (MIL-STD-810H Method 504.3 Contamination by Fluids) testing standards. Includes 2-year limited warranty.

Attributes

- Made from up to 54% post-consumer recycled (PCR) plastic and shipped in FSC® certified packaging.
- Limited viewing angle narrows the field of vision to ±30°.
- Blue light filter eases eye strain and potentially minimises disruptions to natural sleep patterns.
