## Overview

Ragni R129SG gauging trowel features a 7” blade that is taper ground, tempered and hardened for maximum strength and durability. The blade is semi flexible which is ideal for scooping mortar or plaster from buckets, the rounded edge design prevents damage to buckets. The trowel features a soft-grip 2 component handle with finger guard for comfort and the end cap is ideal for tapping brickwork or ridge tiles. They represent outstanding value for money, are long lasting and perfectly balanced.
