UPP5032

Plinth, 65x500x320

This polyester floor frame provides extra space and a strong fixation between the enclosure and the floor. Installing cables is made easy as the frame creates extra space underneath the enclosure.

CHARACTERISTICS	
Width	500 mm
Depth	320 mm
Plinth h	65

Item no.: UPP5032
EAN no.: 8713574101586

Technical data

Description: Enclosure and plinth are anchored together on the floor. Fixing points for anchoring are marked on the inside bottom panel.

Material: Glass fibre reinforced polyester.

Finish: RAL 7035.

Delivery: Plinth, metal braces M12, U-profiles, counter-profiles and mounting accessories.

Features

Feature: Polyester floor frame with fixation holes for modular polyester wall mounted enclosures.

Advantage: The floor frame is mounted underneath the enclosure to provide extra space between the installation floor and the bottom of the enclosure allowing both the enclosure and the frame to be fixed to the floor at the same time.

Benefit: The frame provides a strong fixation between the enclosure and the floor, while lifting the enclosure's door ensuring access can be gained easily.
