## FEATURES

- Injection moulded tools
- Nylon 11 insulation
- Easy to read scale
- IEC 60900:2004 specification

# RS PRO 1/2 in Square Drive Reversible Torque Wrench Mild Steel, 12 → 60Nm

**RS Stock No.: 911-1531**

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

From RS PRO, this torque wrench is compatible with 1/4 inch driver bits, and is designed to prevent over-tightening when fastening nuts and bolts. The tool applies a pre-set level of torque before 'breaking', preventing you from potentially applying too much force to a fastener. This torque wrench is also insulated to protect you from up to 1000 V. It features injection moulded Nylon 11 insulation that bonds with the tool to offer maximum protection and longer life. This unique Nylon 11 insulation makes the tools a great choice when working in extreme climates and the most difficult conditions

## General Specifications

| | |
|---|---|
| **Torque Range** | 12Nm to 60Nm |
| **Drive Shape** | Square |
| **Drive Size** | 1/2in |
| **Type** | Reversible |
| **Accuracy** | ±3% |
| **Material** | Mild Steel |
| **Finish** | Chrome Nickel Plated |

## Electrical Specifications

| | |
|---|---|
| **Working Voltage** | 1,000v |
| **Tested Voltage** | 10,000v |

## Mechanical Specifications

| | |
|---|---|
| **Overall Length** | 350mm Reversible |
| **Weight** | 1111 |

## Approvals

| | |
|---|---|
| **Compliance/Certifications** | IEC60900:2004 |
