The Assorter component boxes are a series of handy boxes that are easy to take with you anywhere

The boxes' practical partitioning means that the contents can be sorted and stored in a minimum of space.

The Assorter series consists of 12 boxes of various heights, widths and depths. The base is made of robust polypropylene plastic, while the lid is of transparent plastic, allowing the contents to be easily identified.

At the front, the boxes are equipped with a sliding latch that keeps the lid securely closed, while the rear side is equipped with strong external hinges that gives the boxes extra strength.

The boxes come in two variants, with either fixed compartments to cover basic storage needs, or removable inserts that provide great flexibility.

A range of empty Assorters is also available in various sizes, which can be fitted out from scratch using the various inserts in the range.

The larger Assorters are equipped with handles which make them easy to transport.

What's more, the Assorters with removable inserts are equipped with U-profiles inside the lid that keep the contents in place during transport.

As an accessory to the Assorter boxes, trays with a range of inserts are available, which can be freely arranged to provide functional box solutions for various needs.

raaco's HandyBox system was designed to enable Assorters to be transported in a smart way. The system allows you to store up to four Assorters together, in a minimum of space.

With the HandyBox, it's an easy matter to transport all four Assorters at once – they can be carried in one hand.
