Bluetooth Speaker
Splash Proof

The Bluetooth speaker is splash-proof with a suction cup to stick to most smooth surfaces and tiles, capable of playing music as well as taking and making calls. This makes it ideal for places such as the kitchen and bathroom.

NLBTS-01PK - Pink Bluetooth Speaker
NLBTS-01BK - Black Bluetooth Speaker

Specification

- Up to 10mtr distance
- 2hr Operating time
- Built-in 400mAh battery
- IPX 4 Splash-proof
- Built-in microphone
- Output: 3W
- Power: DC 5V 100 - 120mA

IPX4 water resistance is a rating system that tells you how resistant a device is to water.

IPX4 water resistance is the Ingress Protection Mark number 4. The number 4 signifies that a device is resistant to water only at the splash level. It can survive minor water splashes but cannot be submerged.

Charging is via USB Micro B port, ensure port is covered with the rubber cap before using near water. Charger not included.
