GLM40-6P

Sliding nut M6 20x40 rail

These mounting rail sliding nuts allow components to be fixed in any position on the rail, which means components and equipment can be easily installed exactly where required.

CHARACTERISTICS	
Thread	M6
To be used with	CP2040, CP2040U, CLPF profiles

Item no.: GLM40-6P
EAN no.: 8713574122437

Technical data

Description: Sliding nuts to be used with CP mounting rails and CLPF mounting profiles for easy installation of components.

Material: Zinc plated steel.

Pack quantity: 50 pieces.

Features

Feature: Zinc plated sliding nuts to be used with mounting rails or profiles.

Advantage: The sliding nuts allow components to be adjusted continuously along the entire profile.

Benefit: The continuous adjustment means that customers can install components and equipment exactly where they need to.
