Workplace Dispensers

PRODUCT DESCRIPTION
Unique range of 1 litre, 2 litre, 3.25 litre and 4 litre closed, sealed cartridge professional dispensers that meet the distinct needs of any workplace and public facility environment.

USAGE
For exclusive use with SC Johnson Professional skin care products to create tailored skin protection and hand hygiene programmes.

WHERE TO USE
General industry, food industries, catering, healthcare, any workplace and public facility.

METHOD OF USE
Large, 'easy-push' buttons dispense a measured dose of product appropriate for the application required and empty cartridges are easily replaced in seconds.

	DESCRIPTION	BENEFITS
FEATURES	All SC Johnson Professional workplace dispensers have a BioCote® protected push button[1]	BioCote® silver-ion technology effectively reduces bacteria, mould and fungi on the surface of BioCote® treated SC Johnson Professional® dispenser buttons within as little as 2 hours and achieves up to 99.99% reduction over a 24 hour period*. BioCote® maintains its antimicrobial protection for the lifetime of the dispenser button and will not wear off, wash off or leach out. BioCote® technology is not a substitute for good hand hygiene practices.
	Guaranteed for Life[2]	Proline dispensers are guaranteed for their lifetime. Guarantee applies only in the European Union, United Kingdom, and Ireland and to dispensers exclusively using SC Johnson Professional products. Other terms and conditions apply: https://www.scjp.com/en-gb/guarantee
	Universal design	Understood by all to increase compliance in multilingual settings.
	Measured dose	Delivers the right amount for effective product application, controlling over-usage and waste
	Hygienic, airless cartridge	The ultrasonically sealed cartridge and pump mechanisms allow no ingress of air into the cartridge during use to help prevent product contamination and ensure 'fresh' product is dispensed every time.
	Minimal waste	The air-tight cartridges are designed to collapse during use to minimise product waste.
	Large easy-push buttons	Minimise the operation force required to allow easy use by hand.
HANDLING	Low maintenance	Easy to clean, quick to fill.
	Colour-Coding	Easy visual identification of product type to encourage correct product usage and compliance.
	Sight glass	Indicates the presence of a cartridge.
	Time saving	Cartridges can be replaced in seconds, minimising maintenance time and associated costs.
	Secure lockable mechanism	Unique mechanism helps prevent unauthorised access, pilferage and product contamination.
	Battery Free	Our dispensers are battery free, reducing costs and the risk of landfill contamination.
CERTIFICATES/ COMPATIBILITY	HACCP International certified[3]	Many of the SC Johnson Professional workplace dispensers (see table on next page) are suitable for use in the Food Industry and certified by HACCP International (see table on reverse) as being food-safe. This means products are suitable for use in food handling areas such as kitchens, production areas and processing areas, but not suitable for coming directly into contact with food or items that will touch food. HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.
	Dedicated antimicrobial hand wash & sanitiser 1L dispenser range suitable for food and hygiene sensitive environments	The dedicated dispensers include transparent covers to provide accurate soap level visibility, to establish if a cartridge change is required, without having to open up the dispenser. The locking system has a blue key which means it is more easily identifiable, should it fall into food.

GUARANTEE ON DISPENSERS[2]

SC Johnson Professional Proline Manual dispensers are warranted for their lifetime to be free from defects in materials and workmanship under normal use or the original purchasing end customer may be eligible to receive a free replacement dispenser or part(s). Guarantee applies only to dispensers installed in the end customer's facility in the European Union, the United Kingdom, and Ireland that are exclusively using SC Johnson Professional products. Guarantee does not cover dispensers purchased from unauthorised distributors. Other terms and conditions apply and eligibility is subject to verification. For the full terms and conditions visit https://www. scjp.com/en-gb/guarantee.
Guarantee provided by SC Johnson Professional Limited, Denby Hall Way, Denby, Derbyshire, DE5 8JZ UK
THIS GUARANTEE IS IN LIEU OF ALL OTHER WARRANTIES OR GUARANTEES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY RELATING TO QUALITY OR OF FITNESS FOR A PARTICULAR PURPOSE. Our liability shall not exceed the actual amount paid for the dispenser. We shall not be liable for any consequential, incidental, special, or punitive damages. End customers are deemed to have accepted the above guarantee and limitation of liability. They cannot be changed verbally or in writing, except in a written agreement signed by SC Johnson Professional.
