Delivered flat the Cartobox elasticated filing box, an innovation from Exacompta, is very easy to assemble with its small folding tabs and then has the same qualities as a box delivered assembled.
It allows real space saving in the office and home, as it is assembled in use and stored flat. But above all, it considerably reduces packaging volume, transport costs and CO2 consumption.
Made of real glossy card - a homogeneous and resistant material - the Cartobox has a superior quality aspect and lasts longer, while being ecological because it is FSC® certified.
The spine label makes it easy to identify the contents.
The pastel colours of the Aquarel range bring lightness and a cocoon atmosphere to filing. It will appeal to young people as well as professionals.
