Horizontal board mounting

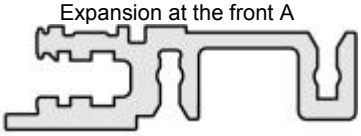

europacPRO

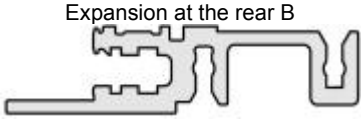

(1 TE = 1 HP, 1 HE = 1 U)

Expansion at the front A

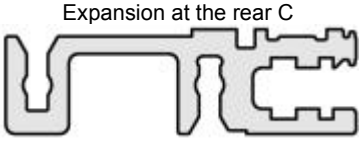

Horizontal rail at the front, short lip↲(H-KD) = flush front panels

Expansion at the rear B

Horizontal rail at the front,↲long lip (H-LD)↲= required if IEEE handles are used, for↲CompactPCI or VME64x systems

Expansion at the rear C

Horizontal rail at rear, recessed (H-VT) ↲= for direct backplane assembly

Expansion at the rear D

Part no.: 24564-127

Features:

- For horizontal
  assembly of double euroboards in 3 or 4 U high
  subrack/case

Technical Information:

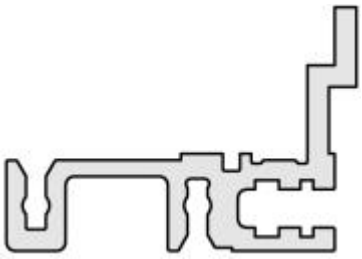

Height	Usable height h	Other dimensions and options
3 U	20 HP	front A, rear D

Delivery comprises: kit

Item	Qty	Description
1	4	Strut, Zn die-cast
2	2	Horizontal rail, front, type Heavy (H), with short lip (H-KD), long lip (H-LD), Al extrusion
3	2	Horizontal rail, rear, type Heavy with Z (H-MZ), Al extrusion
4	1	Horizontal rail, rear, type Heavy with Z (MZ), Al extrusion
5	2	Threaded insert, St, zinc-plated
6	1	Assembly kit incl. instructions

Accessories:

Part no.	**Description**	
24564-209	Front frame, EMC shielded, for horizontal boards H = 172.85 mm	

Horizontal rails at rear with Z (H-WZ) =↵for assembly of connectors complying↵with IEC 60603

Product illustrations are exemplary illustrations and can deviate from supplied products.

34564-208	Front frame, unshielded, for horizontal board mounting	
24560-270	Assembly tool for stainless steel EMC gasket, 1 piece	

Note:

- Please order front frame for EMC shielding separately
