Polyco® BODYGUARDS

Finite® Black

Finite® Black is a powder free nitrile disposable glove which is compliant to European Standard EN374 providing an effective barrier against oils, acids and other chemicals. It features a unique diamond grip pattern over the entire hand area which optimises surface performance and ensures an outstanding grip at all times. Made from a superior strength nitrile formulation, it provides exceptional resistance to tears and punctures yet is extremely soft and flexible providing unparalleled comfort and sensitivity. The cuff is beaded further adding to its strength and preventing liquid roll back. Containing none of the proteins that are present in latex, it eliminates the risk of protein sensitisation. It is also powder free reducing the possibility of product contamination. Offering good chemical and mechanical properties for a disposable glove, the Finite® Black is highly versatile and has an AQL rating of 1.5.

Typically used for:

- Automotive Engineering
