

14 Piece SAE/Metric T-Handle Hex Key Set

83514

Features

- Keys made with alloy steel for maximum strength and to resist rotational distortion
- Chamfered edges on both ends help guide the key into the fastener smoothly and quickly
- Comfort dual material grip allows for added torque and non-slip use
- Keys can be used as short or long arm, providing access in all situations
- Size markings clearly identified at base of t-handle
- Meets or exceeds ASME standards
