

10 Piece SAE Ball End T-Handle Hex Key Set

83523

Features

- Ball End design provides increased access, increasing entry angle to 25 degrees
- Keys made with alloy steel for maximum strength and to resist rotational distortion
- Chamfered edges on both ends help guide the key into the fastener smoothly and quickly
- Comfort dual material grip allows for added torque and non-slip use
- Keys can be used as short or long arm, providing access in all situations
- Size markings clearly identified at base of t-handle
- Includes metal stand for storage and organization
- Meets or exceeds ASME standards

Specifications
