Aluminum heatsink to keep your system cool

The Lexar® LPAH100 M.2 2280 SSD heatsink features a sleek and stylish design combining a unique look with cooling functionality to maximize your SSD performance. It is also compatible with your PC, PlayStation® 5 and other devices, and easy to install and operate

Cooling Heatsink to Maximize Performance. Featuring a sleek and stylish design, the Lexar® LPAH100 M.2 2280 SSD Heatsink provides effective cooling, better protects your M.2 SSD from high temperature and allowing your SSD to run more efficiently to maximize performance.

Superb Design Engineering. Designed with a premium aluminum heatsink enclosure and aggressive design, keep your system looking and feeling cool with the LPAH100 M.2 2280 SSD Heatsink.

Designed for your PC, PlayStation®5 and other devices. With a Lexar M.2 2280 SSD, it's a perfect fit for your PC and PlayStation® 5 for both work and play.

Easy to install and operate. Quickly install and easy to operate, our passive cooling kit for M.2 SSD is a must-have kit for every PC enthusiast and PlayStation® 5 users.

4-steps Installation.
Step 1: Pill off a protective film on each side of the thermal pad.
Step 2: Stick the thermal pad to the aluminum heatsink and steel tray.
Step 3: Put the aluminum heatsink, M.2 SSD, and steel tray together.
Step 4: Add the 4 screws to hold everything together.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

For more than 25 years, Lexar has been a trusted leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, solid-state drives and DRAM. With so many options, it's easy to find the right Lexar solution to fit your needs. Lexar products are available worldwide at major retail and e-tail stores.
