FM35

DigiMate

Hand-held digital thermometer

OPERATING INSTRUCTIONS

The FM35 is a simple to use hand held food thermometer with a protective rubber boot, large LCD display and rubber ON/Off key making it ideal for use in any food environment.

To Operate:
Switch the instrument on by pressing the blue button. Insert the probe into the food. The temperature will be displayed on the LCD screen. Clean the probe between applications. The FM35 switches off after 3 minutes of inactivity.

The FM35 comes with a General Purpose Probe (Part No FM35-GP). An Air Probe is available to order (Part No FM35-AP). Both probes are connected via a simple Lumberg connector. 1 x 9v battery is included.

Range: -40°C to 110°C / -40°F to 230°F
Accuracy: +/- 0.5°C over 0 to 70°C, then +/- 1°C elsewhere.
+/- 0.9°F over 32°F to 158°F, then +/- 1.8°F elsewhere.

The overall performance of the instrument is obtained by combining the stated accuracy and any uncertainty due to the measurement process.

Test caps are also available for checking the calibration of your FM35. They are available in the following temperatures: -18°C, 0°C and +70°C.

To order please contact your local distributor and quote the following Part No's:

FM35CC1	**Test Cap (-18°C)**
FM35CC2	**Test Cap (0°C)**
FM35CC3	**Test Cap (+70°C)**

The FM35 is part of a wider range of thermometers and probes. If you have any other requirements please call your local distributor.
