Lexar™

JUMPDRIVE® FINGERPRINT F35

USB 3.0

Product Highlights:

- Up to 10 fingerprint IDs allowed
- Ultra-fast recognition – less than 1 second
- Easy set-up, no software driver needed**
- Securely protects files using 256-bit AES encryption
- Three-year limited warranty

Capacities:

32GB
64GB
128GB

Lexar QUALITY LABS

The ultimate USB 3.0 fingerprint solution.

One of the most secure USB 3.0 flash drives available, Lexar® JumpDrive® F35 uses an ultra-fast fingerprint authentication that allows you to protect your data against unauthorized users – in under one second. The F35 can save up to 10 fingerprint IDs, making sure only you and your closest collaborators have access to your files. It also boasts an easy set-up with no software driver required, so you can quickly start transferring your files with speeds up to 150MB/s*. And for added peace of mind, it also features 256-bit AES encryption to protect your valuable files.Three-year limited warranty.

10 Fingerprint IDs allowed

Ultra Fast Recognition

Easy Set-Up

256-bit AES Encryption

Share your drive – up to 10 fingerprint ID's. With so many people contributing to the important work you do, the last thing you want is for your highly sensitive information to fall into the wrong hands. This drive combines an integration of secure data storage and biometric technology to prevent unauthorized access. Select up to 10 people, and each unique fingerprint will be saved for access to the secure partition of the drive.

Get recognized in under one second. Place your finger on the drive, and when you see the light flash, you're ready to continue powering through your day.

Simple setup. Time travels at the speed of business, and with so much to do, in so little time, the setup for this drive is a breeze. Simply plug in your drive and use the application to set up passwords, enroll fingerprints and manage users**.

Securely protect your files. As if the use of your fingerprint to access your drive wasn't already secure enough, this drive comes with 256-bit AES encryption to protect your critical files.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

For more than 20 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, and solid-state drives. With so many options, it's easy to find the right Lexar solution to fit your needs. Lexar products are available worldwide at major retail and e-tail stores. For more information or support, visit www.lexar.com.

*Up to 150MB/s read transfer, write speeds lower. Speeds based on internal testing. Actual performance may vary.

**Fingerprint registration software only compatible with Windows XP, Vista, 7, 8, 10. Software required to create/edit accounts and adjust partition size. Regular flash drive use compatible with Windows, Linux and macOS.

NOTE:
Security safeguards, by their nature, are capable of circumvention. Lexar does not guarantee data will be 100% secure from unauthorized access, alteration, or destruction.
Some of the listed storage capacity is used for formatting and other purposes and is not available for data storage. 1GB equals 1 billion bytes.
The latest USB driver is recommended for best performance. Contact your device manufacturer to ensure compatibility before installing.
