Traffi®

THE HAND PROTECTION **SPECIALISTS**

TG6250

The TG6250 provides an unmatched experience of durability and comfort by using the LXT yarn. It has an excellent soft handfeel, yet still provides level E cut resistance according to EN388:2016.

The crinkle latex coating and Life Extending Technology treatment make the TG6250 perfect for high cut risk tasks in wet, dry and oily conditions. It provides outstanding grip, whilst maintaining a high level of dexterity.

The LXT range is certified as carbon neutral from cradle to grave. This means that at no extra cost, your LXT glove has helped to lessen it's impact on the environment.

KEY

- Dry
- Wet
- Heat
- Oily
- Cold
- Chemical
