RIGHT LINES 6PCS WELDING MAGNET SET

Right Lines Magnetic Set

The welding magnets replace a third hand, help with simple, precise attachment and positioning, make welding work particularly convenient and clean.

**Contains **

2 x 90 ° & 45° magnets with a lifting capacity weight of 11.KG

2 x 135° - 120° - 105° magnets with a lifting capacity weight of 11.KG

2 x 90° - 45° - 135° magnets with a lifting capacity weight of 4 KG

This kit includes six powerful magnets that are perfect for your daily work needs.

The magnets have a strong suction that allows you to work hands-free, making it fast, safe, and easy to clean.

The angled design of the magnets can hold the blade and tube at 45°, 90°, 105°, 120° and 135° angles.

The compact and small appearance of the magnets makes them easy to hold and store.

These magnets are suitable for welding, marking, bracing, and positioning in pipe installation, among other scenarios.
