A112N Alarm Horn Sounder

The A112N is a high output 120dB(A) automatically synchronised alarm horn sounder. Globally approved for fire, marine and general signalling applications. Featuring 64 alarm tone frequencies and 4 remotely activated stages/channels.

Low current consumption and high SPL in a outdoor rated enclosure ensure the A112N is suitable for all applications including fire, security and process control. Designed to withstand the harshest of environments. Constructed from lightweight, impact and fire resistant ABS, the A112N employs the latest in reliable D Class amplifier technology for superior sound output with low current consumption. The A112N is a member of the versatile AlertAlarm family of industrial alarm horn sounders – also available with Xenon, AL112NX or LED beacons, AL112NH.
