Hygienic Weld-on fitting Universal adapter for VEGABAR and VEGAPOINT Switches with 1” Threaded connection

Description

Threaded process connection with elastomer seal supplied with sensor and Ra<0.76µm hygienic polished finish. This Universal connection is welded onto the process pipework or vessel. The VEGAPOINT level switch or VEGABAR pressure sensor/switch sensor simply screws into the fitting for flush mounted and hygienic installation.

Application area

Hygienic adapter suitable for VEGABAR series 10, 20, 30, 80, VEGAPOINT series 10, 20, 30 and with process fitting G1" with O-ring/316L - Flexible and simple integration into the system

Benefit

Fast replacement during system downtime - Reduced stock keeping due to standard sensors

Technical specifications

Wetted parts:	316L
Finish	Ra<0.76µm
