230 LED Installaton Beacon

LED Permanent beacon with M 20 thread for applications such as position and cable operated switches. Extremely high light intensity. Modern Chip-On-Board technology. Ideal for installation in limited space due to short thread. High protection rating IP 65 for indoor and outdoor applications.

TECHNICAL SPECIFICATIONS

Dimensions (Diameter x Height):	28,7 mm x 38,5 mm
Dome:	Polycarbonate, transparent
Fixing :	Installation mounting for M 20 x 1,5 mm
Housing :	ABS/PC-Blend, black
Operating voltage:	24 V =, 115 V ~, 230 V ~
Current consumption:	45 mA at 24 V 15 mA at 115 V 15 mA at 230 V
Starting current:	< 0,5 A at 24 V
Life duration:	up to 100.000 h
Terminal element :	2 wires, c. 115 mm long
