# Weller Single Layer Soldering Iron Replacement Cleaning Sponge.

## Weller Single Layer Soldering Iron Replacement Cleaning Sponge.

Weller Soldering cleaning sponge is a single layer sponge used for cleaning your soldering iron tips. The cleaning sponge will fit into the WSP 80 soldering iron stand. It is important when soldering to keep the tip clean, especially when using a lead-free solder.

Soldering iron tips build-up oxidation and this must be removed as the tip will no longer function as required. Cleaning tips with a sponge is often referred to as Wet Cleaning.

Weller has available every possible accessory you will need to match your soldering applications including, soldering stations, fume extraction solutions. soldering irons and kits, soldering iron stands, tips.
