USB PERIPHERALS

USB 3.5 Inch Floppy Disk Drive

The FLP-EXTA is an external 3.5" floppy disk drive which connects to the PC by USB 1.1. This allows you to read and write 3.5" floppy disks on modern computers which are unlikely to still have a built-in drive.

Features

- Compliant with the USB 1.1 Specification
- Supports 3.5 Inch 1.44Mb disks
- Plug and Play compatibility
- Supports OS up to Windows 10
- Desktop or Laptop use
- No external power required

Please note: On Windows 7 & Windows 10 it may not appear to be installed, you will have to find the drive manually.

- On Windows 7 this can be found via Windows button and click on Computer and it should show up as A:
- On Windows 10 it can be found via file explorer and then click on This PC and it should show up as A:
