

PS200A - Desoldering pump

Bestellnr.:PS200A

PS 200A Manual desoldering pump

With the hand-held desoldering pumps a vacuum is produced by means of a piston, cylinder and spring force. The piston is tensioned manually and secured automatically. The piston is moved back suddenly by pressing the release button and a vacuum is created briefly so that the soldered joint is freed of liquid solder.

Top Attributes

- Length 200 mm
- Strong vacuum, minimal rebound
- Metal housing
- antistatic (with tip PS2001A)

Technical Data

Target application	Electronic
On/off indicator	No
Build in Light	No

Packaging information

Shelf pack size (Units per shelf pack)	Single
Set	No
