LOGIC™ PLUS

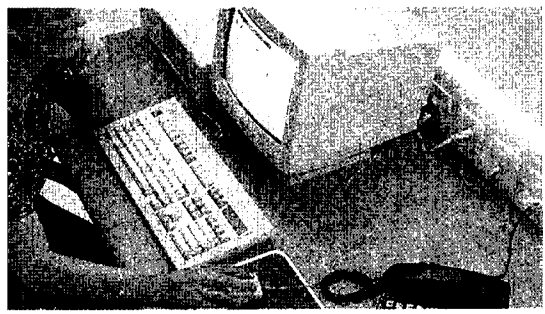

Data Outlets

Frontplates are available for Euro, LJU6C and MK's own modular data connectors.

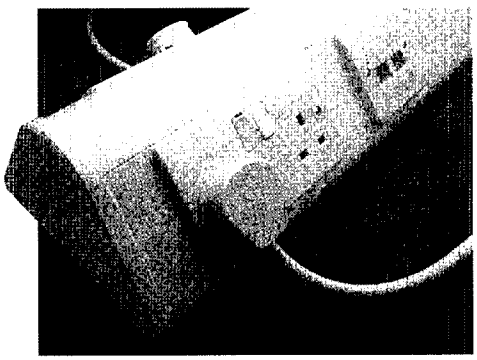

Modular data frontplates are the perfect match for MK's skirting and dado trunking systems.

Prestige Plus skirting and dado.

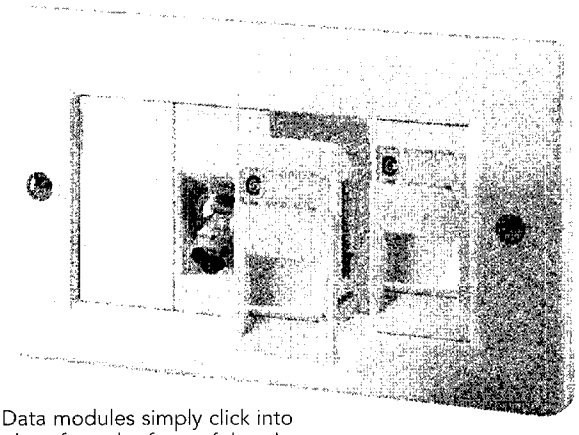

Pinnacle bench trunking.

MK Logic Plus offers a selection of recognised standard modular frame formats which accept Euro, LJU6C and MK modular data connectors giving greater flexibility and interchangeability.

The stylish frontplates are designed for wall mounting or as a perfect match to the skirting and dado trunking ranges available from the MK Cable Management portfolio.

A comprehensive selection of data connectors including category 5 RJ45, RJ11 and BNC are available.

Data modules simply click into place from the front of the plate.
